

APPLICATIONS:

The Equal Percentage trim provides excellent control characteristics when the HPMV is required to throttle the flow of gas for back pressure or pressure reducing service.

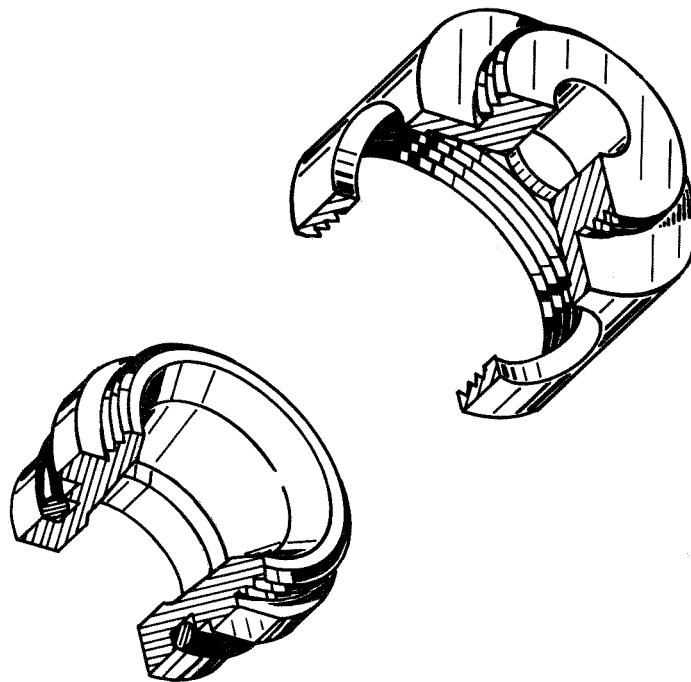

FEATURES:

- Easy seat removal
- Wide range of sizes
- Parts interchangeability

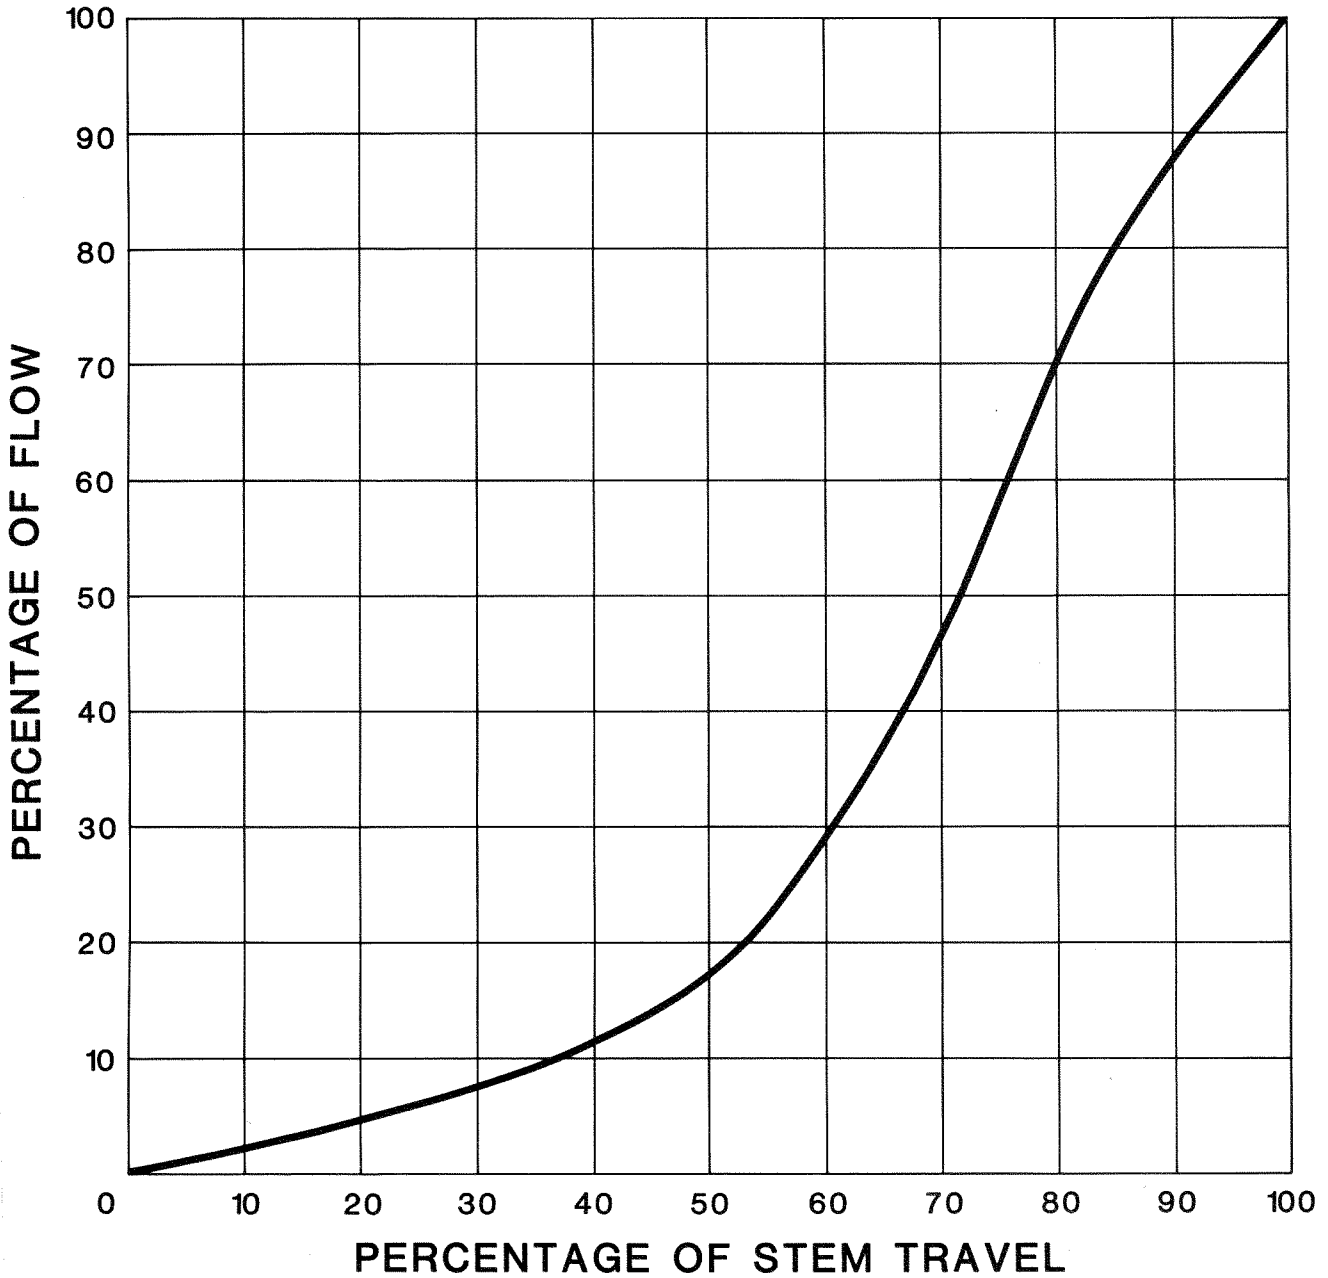

INNER VALVE SPECIFICATIONS:

Standard 7/16" valve plug is carbide. Standard valves plugs for 5/8" and 7/8" are made of hardened high chrome alloy steel. Standard seats are made of heat treated tool steel.

Inner valves can be made from a wide selection of materials. Specify when ordering.

EQUAL PERCENTAGE SEAT TYPICAL CHARACTERISTICS
